

8” Hydrangea Item# 22654

Enjoy stunning snowball-shaped pink and blue flowers inside your home or on your patio (after the danger of frost). Place your Hydrangea in bright indirect light. For best performance keep the soil moist, but not sitting in water. Your Hydrangea can be planted in dappled shade outdoors, but will most likely not survive the winter temperatures.

How to Grow:

Place in bright indirect light

Keep soil moist, not wet

Can be planted outdoors in partial shade, treat as an annual
