

## **12” Mandevilla    Item# 86328**

Mandevilla are a wonderful addition to any garden. Bright trumpet shaped flowers on dark green vines add color and tropical flair. They also attract hummingbirds and butterflies. Plant them in mixed containers or place them around your patio. They grow best in temperatures between 60F – 90F and cannot tolerate temps below 40F.

### How to Grow:

- Plant in full sun to partial sun
- Keep soil evenly moist, but not wet
- Fertilize every two weeks
- Remove dead leaves and blooms
