

## **Blooming Garden Item#18662**

Blooming gardens make perfect gifts or decorations for your home. These indoor gardens help to brighten those dreary winter months.

Place your garden in bright indirect light, away from severe drafts.

Water your garden only when the soil is dry, saturated soil can damage the plants.

Make sure to water all three plants.

Remove dead blooms and leaves as needed.

Fertilize once a month with a general houseplant fertilizer.
