

## **Blooming 10” Shamrocks**

**Item #1638199**

Bright green or purple foliage and small cute blooms bring a bit of luck to your home on your patio (after the danger of frost). A nice addition to your home for St. Patty's Day. The shamrocks can be placed in a spot with plenty of indirect light. For best performance keep the soil moist, but not wet. After your flowers finish blooming, the foliage will continue to grow!

### How to Grow Indoors:

Indirect light

Cool home temperature 60-65 F

Moderately moist soil
